

Current Transformer ST45

STR45 series of current transformers can be applied to test, control, display and record the running of the electrical equipment, and to protect the equipment against the damage, in the AC circuit with the rated voltage value below 720V and the frequency of 50-60Hz.

Technical parameter

Type	Ratio (A)	Burden(VA) Class 1.0	Rated Frequency (Hz)
STR45	200/5A	2.5 VA	50/60
	300/5A	2.5 VA	50/60
	400/5A	5 VA	50/60
	800/5A	7.5 VA	50/60

Mechanical Drawings

Frame Size (in mm) :

OD:110 ID:45 H:130 AL:53

Applications:

- Current Measurement
- Monitoring & Protection

CE RoHS
